## INTRODUCTION

For 22 years M&Y Technology has specialised in and only in the Supply, Implementation, Training, Support, Consulting and Development sage products.

Today, M&Y Technology is an International Group, developing, consulting and delivering its partners in more than 50 Countries through its subsidiaries and an extended network of Reseller, System Integrators and distributors.

Our Services Sector is No. 1 supplier of manufacturing, transportation, Governmental and Residential Solutions. With our end-to-end automation technologies and a comprehensive array of industry solutions, we're increasing the productivity, efficiency and flexibility of our customers in the industry and infrastructure segments.

M&Y Technology is not the only company, but unique company focused on bringing you the latest news about Chemicals production, Oil products, Food products, livestock, airport projects, trends, products and services to meet your needs.

Covering everything from new construction projects to rules, regulations and technology innovations, with its professional offices around the world, delivers the objective coverage required by C-level executives and other decision makers to keep abreast of the industry.

When you combine this with one of the most comprehensive and detailed listings of others suppliers, products and services, free white paper downloads and company it is easy to see why M&Y Technology is the industry's key point of reference.

Working in conjunction with our long-running partners M&Y Technology has all bases covered when it comes to the airport infrastructures as well.
